

RF Power Detector

Features

- 34 to 35 GHz Frequency Range
- Wide dynamic range of input power -30 to 15 dBm
- 2.92mm Female Connector for all ports
- Single positive supply voltage, +5V
- High accuracy
- Temperature: $-55\div80^{\circ}C$

Electrical specifications

Description	Minimum	Typical	Maximum	Unit
Frequency range	34		35	GHz
Supply Voltage		5		V
Lower Input Power	-30			dBm
Upper Input Power			15	dBm
